FOR IMMEDIATE RELEASE

ProNet Career Resources 501 (c) 3 Non-Profit status approved by the IRS

Lake Mary, Florida (01/03/11) ProNet Career Resources, whose mission it is to help unemployed and underemployed professionals find gainful employment through networking, employment resources, educational presentations, and uncovering the hidden job market is proud to announce that they have just been officially classified as a 501(c)3 Tax Exempt, Non-Profit organization.

Serving the community since 2003, ProNet Career Resources was established to equip the job seeker, with many of the tools they will need to re-energize their search for a new position. ProNet's Steering Committee is committed to (besides their own job searches) providing the membership with these resources. Projects are in their "birthing stages" that will take us to the "next level" in our goal to assist those in transition. One of these programs is the dramatic acceleration of Operation Employer Awareness. ProNet Career Resources offers employers the capability to review, at no charge, our member Profiles - Available Talent page at www.pronetcareerresources.org. We also stress the importance of keeping their LinkedIn Profile current since LinkedIn has become a primary networking tool even amongst high profile employers and their talent acquisition teams.

Employers are encouraged to take advantage of our FREE database of highly qualified professionals. In this economy, employers are continually seeking cost effective venues to augment their staffs..... Here's the answer.

Originally serving the central Florida area our membership now spans the nation.

ProNet Career Resources meets every 4th Monday evening at the **Jean Rhein Central Branch Library in Casselberry, Florida**. Visit our web site for more information: www.pronetcareerresources.org.

Expansion of and donations to this high profile support group will enable our members to participate in additional programs. All members are seeking ways to bring their own job search to new levels. We've found that process....and it works!!
